1	Without this bursary I would not have been able to concentrate, and would of had to have taken a year out to gain more finances to enable me to support myself throughout my final year of university. Without the Cheshire campus tutors and support staff I wouldn't of continued studying with Manchester Metropolitan University but the staff are obviously enjoying their job and do have respect for students. This bursary is an amazing way that recognises that independent students do require support both financially and emotionally because it does make a massive difference to me as I haven't been able to secure a temporary job during the summer and have racked up uncontrollable debt but this bursary has meant that debt is cleared and I can finally concentrate on university.	8/19/2016 5:58 PM
